My Big Cats Journal

Written and Photographed by Steve Bloom
Thames & Hudson £7.95 ISBN: 978-0500650028

There is no easy way to become a wildlife photographer. It requires skill and dedication. Read this account of an expedition to photograph the four most celebrated members of the Big

Cat family around the world. Steve Bloom set out to photograph and record lion, leopard, cheetah and tiger in their respective environments and it was no easy task. You appreciate the time it took to get the perfect shot whilst remaining calm and safe in dangerous situations. The wonderful photographs picture the animals caring for their young, relentlessly pursuing prey and always seeming to be at home in their surroundings. The "close-up" paragraphs provide statistics,

such as scientific names, longevity and habitat. The Top Tips sections show you how to organise your own photographic records. This book should inspire you even if you are only going to take pictures of your family pets or animals in the zoo.
(7-10+)

Anne Munro
